Chief,

A staff member (who is also a resident) sent this to me a few minutes ago. I am forwarding to you as I know you are tracking as much as possible to assess any security concerns. Please let me know if there is anything further I need to do.

Helen

Helen Payne

Mrs. Payne,

The original post from Angela Reading is continuing to circulate. Most recently, it was sent to me as seen [here](#). I am extremely concerned for the wellbeing of our staff, community, and our board members. The comments that people are saying are absolutely disgusting. They are harming the district and the personnel that work in it. I would believe that there are many cases of how her post has caused defamation and slander. How her post has directly negatively impacted us.

Please be warned that the comments are absolutely disgusting. I am completely disheartened.

Best,

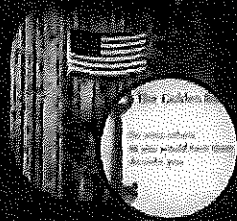

Courtney Szymanski

Great job, Angela! I know you agree Captain Duff is a great person and cares for this community! I'm sorry you didn't have the chance to correct that.

Good evening,

After watching tonight's broadcast on Fox.. I have some concerns posted by both community and non community members. Attached is a post stating that our schools are located in the North Hanover area.. and another stating that our school is located on FCN..

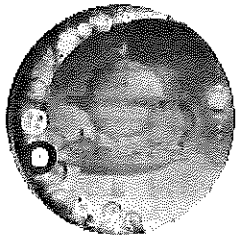

Please see the attachment for concerns over our district at this time.
